Sold in Hopkinsville by the Anderson-Fowler Drug Co. Incorporated.

Daily Health Hint.

The exercise of the muscles may be so prolonged that the decay of their particles will exceed the supply of nutrition furnished by the blood. In this case the muscles will grow smaller and weaker from overaction. Some people injure themselves as much by excess of exercise as others do by want of it.

Soothing Drink.

When one is subject to sore throat a soothing drink is made from a pint of barley water, brought to the boiling point over a hot fire. To this is added an ounce of the best gum arabic, which is constantly stirred until dissolved.

TO FOLLOW DINNER

SOME OF THE MOST SATISFACTORY OF DESSERTS.

French Caramel Custard Is Delicious—Plain Nougat Easy to Make—Maple Ice Cream—Recipe for Hot Apple Cups.

French Caramel Custard.—A little different is this French custard. Heat a pint of milk in a double boiler. The milk, by the way, must be quite fresh or the caramel is likely to curdle. It. Into a new granite pudding dish put four tablespoonfuls of granulated sugar and melt it on top of the stove, watching and stirring it carefully until it is a clear bright brown liquid, thoroughly caramelized.

Pour on to it gradually the scalding milk, which will dissolve most of the caramel sugar. Pour this liquid gradually on to the beaten yolks of three large eggs or the whole of two. Return to the pudding dish and bake an hour in a slow oven, with an asbestos mat under it and one protecting it on the side above. It should—like all baked custards—have a firm "live-like" consistency when done, and can be safely taken out of the oven when a thin knife plunged into it does not look creamy or sticky. Caramel which has hardened on the pan or even on the spoon will dissolve in the long cooking.

Plain Nougat.—Have ready square shallow pans lined with paraffin paper or greased slightly with olive oil; mix together a pound each of blanched almonds, sliced Brazil nuts, English walnuts shelled and a quart of peanuts shelled and skinned; put over the fire in a porcelain lined kettle two pounds of granulated sugar and a cup of water; stir until the sugar is dissolved, no longer, then boil without stirring until the syrup begins to slightly change color; take quickly from the fire and, having sprinkled the nuts in the pans to the depth of half an inch, pour over them the hot sirup until well covered. Stand in a cold, dry place and when half cooled and stiffened mark into bars, using a knife slightly oiled.

Hot Apple Cups.—Turn tin oval cups upside down, cover with good pie crust, put in baking pan, still upside down, and bake a light brown in moderate oven. Cook six apples with the rind and juice of a half a lemon. Sweeten to taste, add a generous lump of butter, and flavor with a little nutmeg. Keep hot till ready to serve. Fill the pastry cups and put a spoon of whipped cream on top of each one.

English Apple Tart.—Peel and core tart apples, put into a large sauce pan, cover with boiling water, stew gently until the apples are tender but unbroken.

Line the edges of a deep pie tin with crust, then fill the center of the dish with apples, dropping into the center of each a spoonful of orange marmalade.

Cover the top of the dish with strips of pastry arranged lattice fashion and bake quickly until brown. Serve hot.

Maple Ice Cream.—Make a custard of three pints of milk, one cupful of white sugar and the well-beaten yolks of five eggs. Moisten half a pound of maple sugar and boil until it candies. Stir into the custard and when cool and ready to freeze add one pint of whipped cream and the beaten whites of the eggs.

Ice Cream Cake, Filling.—Boil three cups of sugar in one cup of water to a thick sirup. Beat the whites of three eggs to a stiff froth and gradually pour the boiling sirup over it, stirring vigorously. Season with vanilla, lemon or orange juice and beat until cool.

Cauliflower Salad.

Boil a cauliflower until it breaks easily, let it drain until perfectly cold. Shred the heart of a white cabbage lettuce, and mince together a small onion, a few sprigs of parsley and grate finely a tablespoonful of horseradish. Place the lettuce first in the bowl, next the sprigs of cauliflower, over all. Mix a dressing as follows, and pour over all. A spoonful of made mustard, the beaten yolk of an egg, two spoonfuls of oil or melted butter, one of vinegar and a tablespoonful of salt.

Mexican Eggs.

Take three sweet green peppers, split lengthwise and remove the core and seeds. Fry two minutes in hot butter. Fry very thin slices of ham and place each piece on a slice or toast. On each slice of ham put a piece of pepper, and put a poached egg on top of both.

Cream Cheese Salad.

Mold one cream cheese into egg-shaped balls and place in a flat salad bowl in nest of shredded lettuce. Serve with French dressing.

This salad arranged daintily on a round cut glass plate or tray makes a handsome center piece for the dinner table.

Pudding Dish Nests.

Most china stores keep a nest of blue pudding dishes. The size for 12 cents holds just enough for three. A 25 cent casserole with cover is very useful for small escalloped dishes, brown Betty or meat pie. It holds enough for three.

Apple Shortcake.

Peel tart apples, cut into slices, sprinkle with sugar and put into a pan. Put a plain cake batter or dough over the apples and bake at once. Serve with cream and sugar.

SAND OF GREAT USE TO MAN

In the Arts and Manufactures Alike It Has Been Found of Immense Value.

The sands of the sea are singularly useful. They are of primary importance in glass making. They have an important place in warfare, as a bank of sand 20 inches thick is proof against modern rifle shots. The electrical properties of sand show that it has positive electricity, although a rod of silica, the chief constituent of sand, is negative.

The singular drying effect which occurs when a stretch of wet sand is pressed by the foot is due entirely to an alteration in the piling of the sand grains. Normally the grains are close together, but abnormal piling is brought about by pressure of the foot, the space between the edges of the grains being enlarged and the water drained away. If the pressure of the foot is continued the sand becomes wetter than ever, the partial vacuum quickly bringing water from the surrounding sand.

In quicksands the moving character is thought to be due to the imprisonment between the grains of gases from organic matter. The practicability of this theory has been shown by comparing the properties of ordinary wet sand and an artificial quicksand produced by adding sodium peroxide to the sand before adding the same amount of water.

HE WAS GLAD.

Jack—Her father cried all during his daughter's marriage ceremony.

Jim—That was a bluff. He was laughing so much in the vestibule that he could hardly keep his face straight when he entered the church.

DAWN OF CIVILIZATION.

In the light of the latest facts it appears that Babylonia was in a comparatively high state of civilization about 6,000 years before the Christian era. At about that time from the east came Babylonian settlers, who found their way toward the west and, finally halting to the northwest of the Red sea, colonized the region on either side of the Nile. When these colonists arrived from Babylonia they were not wild barbarians, but, as we know from the most learned Egyptologists, possessed great ability in certain arts—in a word, were civilized. Thus Egypt, long supposed to be the mother of civilization, must hereafter give way to the land of the Euphrates.

HUMAN KIPPERS.

Thomas A. Edison was discussing with a reporter a criticism of his wonderful storage battery.

The criticism is very laudatory," he said, "but it is the opposite of scientific. It really makes me think of a dialogue I once heard in a museum.

"Two young men stood gazing at a mummy.

"What makes them look so brown and dried-up-like, all the way through, Bill?" the first young man asked.

"Bill replied with this scientific information:

"In them days, George, they took the blokes they killed in battle and kipped 'em for export to the cannibal trade."

LEFT MONEY FOR EDUCATION.

Caroline Phelps Stokes, who died a short time ago, left a provision in her will by which \$1,000,000 was to be left for the education of whites, blacks and Indians. The trusts created seemed of doubtful validity, but the heirs decided to carry out her wishes.

W.B. Reduso CORSETS

Work Wonders for Large Figures

The Reduso greatly improves well developed figures and gives support where most needed. Reduso Corsets are comfortable, easy-fitting, durable, and unaided by straps or attachments of any kind will reduce the hips and abdomen from one-to-five inches.

.TIME.

No. 7

.MASH.

Made at the old-time distillery, Lynchburg, Tennessee, the home of pure whiskey for a century.

Gold Medals and Diplomas Awarded at St. Louis, 1904—Liege, Belgium, 1905

At the Club or at Home

Jack Daniel's No. 7 is the peer of whiskey. It satisfies. Its mellow flavor brings delight to the palate. Straight or high-ball, cocktail or toddy, it's the whiskey used by those who really know.

Its absolute purity and ripe maturity make it delicious in health, necessary in illness.

12 full quarts No. 7, \$15.75, express prepaid.
4 full quarts No. 7, \$6.00, express prepaid.
12 quarts 5 to a gallon, \$12.75, express prepaid.
4 quarts 5 to a gallon, \$5.00, express prepaid.
Jack Daniel No. 7, bulk, age and proof considered, \$4.00 to \$6.00 per gallon.

We are compelled to make the advances in the prices as above on account of having to shut down our distillery in Tennessee. We sell nothing but the strictly pure article as it comes from the still and as we do not mix nor blend our whiskey age and proof fix the price.

All mail orders carefully and promptly attended to. Address all orders to
